

A Life beginning in Water

**We began our life in water
In the water of the womb of our mother;
And as a baby grows; so do we, as persons of Mercy.
And our life begins with love in Mercy.
It's LOVE that brings life to the world.**

**Life lived from birth becomes transformed
Day by day....
Ought we not to be transformers in a life?
filled with the MERCY of the God who made us.
We are transformed through the LOVE we spread around;
And Mercy will live forever...**

**So, from every corner of this green planet,
from every place of worship
and from every heart wrapped in prayer
comes a single chorus of praise to you, O God.
Oceans, mountains, prairies and valleys add their praise to this prayer today.
And MERCY will live forever...**
